

# Quality Policy

## Products and Services

The products and services provided by Hydraulex focus emphasis on experience, expertise, capability and quality. The quality policy is:

**Strive continuously to improve our quality management system and processes to ensure that the products and services furnished meet and exceed expectations for quality and safety while continuing to remain competitive.**

To achieve this policy, Hydraulex is committed to establish and maintain an effective Quality Management System conforming to the requirements of the relevant sections of ISO 9001.

The objective is to ensure the continuing growth and improvement of Hydraulex by ensuring total customer satisfaction and continuing goodwill thus safeguarding the established reputation of the Company.

To ensure that Hydraulex fully meets its stated policy and objectives, the effectiveness of the documented Quality Management System is subject to regular review by executive management.

Robin Cook  
CEO
