Servicing & Stocking Valves from all Major Manufacturers

Servicing valves from all major manufacturers is as important to us as servicing any other hydraulic component. A properly functioning valve is key to any hydraulic system. That's why you need an experienced team like ours, to trust to do an expert repair on a component that's so critical. We have the capabilities to repair most all hydraulic valves. Each repaired valve goes through systematic testing procedures in accordance with OEM specifications before it leaves our facility.

We also carry an extensive selection of reman and Metaris hydraulic valves - offering a substantial cost-savings over new and delivering OEM level performance.

- Over 10,000 valves in stock
- Extensive line of Metaris valves with deep discounts
- Dedicated test stands for hydraulic valves
- Valves tested for internal and external leakage, proper pilot pressure, flow capacity, proper spool movement, and overall performance
- Final test reports available upon request
- Quick turnaround on repairs
- Free repair evaluations
