NEED HELP? LET'S TALK!

Interested in learning more about our reman units, new aftermarket units, parts or our repair services?

Don't hesitate to give us a call at 1-800-422-4279 or email us at sales@hydraulex.com for product related questions, repair inquiries, or visit us online for additional product information, literature and more.

THE RIGHT REPLACEMENT, RIGHT NOW.®

HYDRAULIC SOLUTIONS FOR INDUSTRIAL EQUIPMENT

Plastic Injection Molding, Steel Mill, Saw Mill, Paper Mill, Recycling, Energy, Entertainment and Simulation Equipment Support

We're your one-stop shop for hydraulic components—supplying reman units, new replacement units, replacement parts, and providing top quality repair services.

All manufacturers names, symbols and descriptions in this document are used for reference purposes only, and it is not implied that any parts listed is the product of these manufacturers.

YOUR SOURCE FOR REPLACEMENT HYDRAULIC PUMPS, MOTORS, VALVES, SERVO/PROP VALVES, PARTS & REPAIRS

ONE-STOP SHOP

We stock and support a long list of manufacturers hydraulic components like pumps, motors, valves, servo & proportional valves and cylinders, that are commonly found in today's injection molding, industrial mill applications and other industrial equipment. This support includes reman units and aftermarket units that deliver OEM level performance, new OEM units, high quality replacement parts and first-class repair services.

IMMEDIATE AVAILABILITY

Minimize downtime with short lead times and immediate availability. With our vast inventory and capabilities, we are sure to have the units and parts you need most, available in stock - ready for immediate delivery from any of our multiple locations across the U.S. - shipping worldwide. If your unit or part isn't on our shelf, we can often times build it or even source it for you.

FIRST-CLASS REPAIRS

We have the experience and expertise necessary for repairing and remanufacturing hydraulic pumps, motors, valves, servo & proportional valves & cylinders for industrial applications like injection molding machines, steel mills, saw mills, paper mills, recycling plants, energy applications, simulation equipment and other industrial equipment.

EXCELLENT RELIABILITY

All units, remanufactured and repaired, are tested before leaving any of our facilities. This ensures your unit is set to OEM specifications and will deliver OEM level performance. We are so confident in the quality of our products and services that we back them with an industry leading warranty: 18 months from the time of purchase, 12 months from the time of install.

PISTON PUMPS & MOTORS

We carry a wide variety of reman & aftermarket piston pumps & motors from a variety of manufacturers including Rexroth®, Sundstrand®, Eaton®, Vickers®, Staffa®, Kawasaki®, Racine®, Oilgear®, Parker®, and many others. Both our reman and aftermarket units are built with parts that meet or exceed OEM spec and are fully tested before they leave our facilities.

VANE PUMPS & MOTORS

In addition to piston pumps, we stock vane pumps and motors in both remanufactured and aftermarket options. This includes single pumps, tandem/double pumps and triple pumps and are available in multiple displacement sizes with a variety of porting, flange and shaft options. Manufacturers include Vickers® and Denison®.

HYDRAULIC VALVES

We stock and repair many types of valves such as hydraulic directional valves, flow control, pressure control, relief, check, and stack valves from many manufacturers such as Vickers®, Eaton®, Bosch®/Rexroth®, Parker®, Denison®, Continental®, Racine® and many more. Our stock consists of both remanufactured valves and new aftermarket valves; both delivering OEM level performance.

SERVO & PROPORTIONAL VALVES

When it comes to servo & proportional valves there is no one better equipped to help you than we are. We stock an impressive inventory of remanufactured valves from many manufacturers such as Vickers®, Bosch®/Rexroth®, Moog®, Parker®, Denison®, Abex®, Atchley®, Schenck-Pegasus®, MTS® and many more. All engineered to deliver OEM level performance and tested on state-of-the-art test stands.

CYLINDERS

We regularly repair and reman cylinders found on many different industrial equipment applications. With our specialty cylinder departments (large, small and telescopic) we are capable of handling any type of cylinder repair: from resealing to the complete rebuilding. We can also repair your obsolete cylinders or design and build you a custom cylinder.

REPLACEMENT SPARE PARTS

Hydralex stocks an extensive inventory of OEM and aftermarket brand piston, vane and gear pump replacement parts. This includes manufacturers such as Rexroth®, Vickers®, Denison®, Sundstrand®, Kawasaki®/Staffa®, Oilgear® and Racine®, to name a few. Our large inventory assures you prompt shipping worldwide.

REPAIR IS ALWAYS AN OPTION

Whether it's injection molding, steel mill, saw mill, paper mill, recycling plant, or simulation equipment, we've got you covered. If you're simply looking for a repair on your current unit or your current unit is one we don't stock or is obsolete, our quality repair services are always an option. We regularly repair components like piston pumps, vane pumps, hydraulic valves, servo & proportional valves, electronic amplifiers, servo motors, and all types of hydraulic cylinders.
